

Vrinda Store Annual Sales Report 2022

Introduction

This report presents an analytical overview of Vrinda Store's performance for the year 2022. The analysis is based on sales data visualized through an interactive dashboard developed in Excel. The dashboard highlights key business metrics including sales trends, customer demographics, order status, sales channels, and regional performance.

Objective

The main objective of this analysis is to evaluate overall sales performance, understand customer behavior, identify high-performing segments, and provide actionable insights for business improvement.

Dashboard Overview

The dashboard is designed to provide a comprehensive view of business performance through multiple visual components:

- Order vs Sales trend analysis
- Gender-based sales distribution
- Order status breakdown
- Sales by state
- Age and gender segmentation
- Sales distribution across e-commerce channels
- Month-wise performance filtering

Sales Performance Analysis

Order vs Sales Trend

The monthly trend shows fluctuations in both order count and total sales throughout the year. Sales remain relatively stable with slight variations, indicating consistent demand across all months.

Customer Demographics

Sales by Gender

The analysis shows a strong female customer base contributing to the majority of sales:

Women: 64%

Men: 36%

This indicates that female customers are the primary target segment for Vrinda Store.

Age and Gender Distribution

The highest contribution comes from adult female customers at 34.59%. Teenagers and senior groups contribute comparatively less, while male customers show lower engagement across all age groups.

Order Status Analysis

The order status distribution highlights operational efficiency:

Delivered: 92%

Cancelled: 3%

Returned: 3%

Refunded: 2%

The high delivery rate reflects strong logistics performance and customer satisfaction.

Sales by State

Top contributing states include:

Maharashtra: 2.99M

Karnataka: 2.65M

Uttar Pradesh: 2.10M

Telangana: 1.71M

Tamil Nadu: 1.68M

Maharashtra is the highest revenue-generating state, indicating strong market presence in this region.

Sales by Channel

Sales distribution across online platforms shows:

Amazon: 35%

Myntra: 23%

Flipkart: 22%

Meesho: 5%

Nalli: 5%

Others: 4%

Amazon is the leading sales channel, followed by Myntra and Flipkart, showing strong dependence on major e-commerce platforms.

Key Insights

Women customers are the dominant buying segment and should be the focus of marketing strategies.

Adult age group contributes the highest revenue, especially female customers.

Amazon is the most effective sales channel for revenue generation.

Maharashtra leads in state-wise sales performance.

The high delivery rate indicates efficient order fulfillment operations.

Conclusion

The Vrinda Store Annual Sales Dashboard provides valuable insights into customer behavior, sales distribution, and operational performance. The analysis highlights key opportunities for targeted marketing towards female and adult customers, as well as strengthening presence on major e-commerce platforms. Overall, the business demonstrates strong sales performance and efficient order management throughout 2022.
